the explorations of an extra terrestrial

as soon as we are .... watching this world ...  
watching ... how all these billions achieving nothing

but how do you flipping your climate ?  
waste your resources millions of times  
too fast ... like wandering locusts

your world contaminating  
your total allergy for any solution

above all ....  
their conversation ... their dialogue disability

their allergy to any human dignity  
being the first priority of your constitution

then we know ... that something is wrong  
with all these ... because no human stands up  
at the understanding of every morning  
to destroy his future

because all of them can not be human ...  
can not be homo sapiens !

can only exterminated ...  
destroyed by any traumas

being criminal offenders ....

that is how we come to our topic

the big secret

then the key word came out during a conversation

>>> woman needs security <<<

which ... of course ... is quite true

but what security?

and as soon as I asked further ... this woman had to leave very quickly  
and when ever she met me ... she said very friendly ... hello ....  
and was never to speak to again  
  
so we had something to find ....

so how did this abominable essence come about ?  
the like in a mice experiment in the last century  
was already touched on by a John Calhon

where this mouse population  
though living in a paradise  
died out after only a few years

even though ... there was no obvious reason for that

but all of these individuals showed offensive aggression  
even cannibalism and homosexuality

meanwhile .... all natural social habits abated  
for no reason it all ... could be found

#### [galactic central information](#)

what is making the seizure of power .... for all those billions .... possible ?

representing the finest government form  
  
this so-called democracy  
  
without any real human rights

allowing everyone to be their own bullies

because he is right as every tyrant  
  
meaning this climate flipping right  
  
those resource misappropriation rights  
  
sick-selling rights .... with mortality sale  
  
about world destructions

meaning without a spark of human dignity

to keeping only accessible  
meaning his citizen duty to follow  
his responsibilities  
the whole offer for thousands of years  
more and more power is given to the underlings  
because then there is no ability at all any where  
for what ?

menaning today we have no dictatorship of one leader

with a few thousand tyrants  
and he being a tyrants

but everyone is there ...  
in this seizure of power for all those billions

where we see no resistance today any where  
only this firm hold on their power of each and every one

and if any such a homo sapiens  
wanting something different

but how to disrupt his future perspectives  
throwing out of the window with both hands his future  
then you have to stop ... what has to be

he has to be done in  
like a galileo 400 years ago  
you just have to ignore him

so why could this woman up there  
did not continue this discussion ?

of course because it is too embarrassing  
their ... all this stupidity

everyone just needs to brag about his stupidity  
to fool around with any stupidity

and he is already there part of it  
choosen from this idiot mass ....

an intelligent order ...

be based on the idea ...

that human dignity would be inviolable  
that the individual could never be forced  
to accomplish any destructive work  
to be forced  
to love any nonsense

subject to any compulsion  
except .... that he must be approachable  
that everyone has to be approachable ... listen to arguments  
listen to solutions ...

and do not insist ... that they only select idiots  
to guarantee your idiotic existence ...

because human rights are not guaranteed  
because this world ends with all those idiots of choice

because with an idiocracy ... you can not save any world  
can not motivate people

normal ???  
if only I hear that word  
then I know ... that I'm the only normal in this world  
because all the others are competitive and not normal

clearly provable ... in the last hundred years  
where an abnormal competitor fails with the other  
for 70 years the fundamental rights can not be enforced  
So we have the record on record ... that all of them  
competing monsters ... that creates by this stress  
through this wrong ... create the stroke  
the heart attack  
because her hypertension ... so ascended  
that something had to burst  
or somewhere where his heart can not keep up

at this abnormal tension due to this abnormal frustration  
and should that go slowly ... then just a cancer  
because biology does not keep up with this endless stress ...  
in this liberated vanity on it ... you can flip your climate  
because nobody can call that a life  
and that's why all these monsters come here ...  
from over all in this world  
to this totally liberated monster mass  
where they can then freely preserve their monster existential interests  
until death redeems them  
to commit peoples murder ... to commit alienation  
to promote the destruction of their own world  
need to push forward  
so we have these competing billions ...  
where there is not a single people group  
where there can be human rights or preserve this world

to be a monster ... must .... nobody  
people worthy of emotion more ....  
  
in a bad order  
so here and in here  
where everyone is allowed to harm ... even written before  
especially necessary ... so someone wants a existence  
of course no world can be preserved  
certainly no people  
because humans are by nature not a pest  
and if you force them >>> to harm  
then build up a tension  
the end of the heart infarct ... stroke attack ... cancer etc

not a single madman should have the opportunity  
to just crazy ... just idiots to gather around  
just insane to unite with

to destroy a world ... for every human !

because only everything in the sense of a world  
useful in the sense of creation ... can be tolerated  
everything else are predators and vermin  
that need to be eradicated

because they only destroying

to be free ...

to have the climate flipping  
to be able to go to an existence  
because the government dictates >

to be free ... to waste resources  
millions of times too quickly

to be free ... with the predator friend  
to be bragging around

to be free ... to be slaughtered  
get poisoned ... radiate treatment

there while demanting ...  
for safe nucleur power to be dismantled

to be free ... only dead food to buy

to be free ... to talk to your death  
since it is impossible to remember  
you would kill yourself  
afterward

to be free ... to the drug consumption  
because without you can not be a mortal  
to keep in this reality

to breed these idiots

be free ... no human rights  
you can sue ...

so not only ... no human rights

you have ... but still be ridiculed

that these should not be enforceable

if they then drown ... billions of them  
at the 10 meter ... 100 meter increase  
of the sea ... that will be a redemption

for all these ...

and the solution of the whole?  
you just needed homo sapiens ...  
1 ppm of the planetary population  
would certainly be enough  
to enlighten all these  
about this total nonsense  
in every country of this world  
about their true rights  
about their true ones  
possibilities  
in a human dignified world

night mare ... planet earth ...  
where two hundred organized crimes  
are wielding absolute power

where as all those subsidiary crimes  
are at their mercy ... are there to take away  
any and all confidence from all potential human beings  
are there to keep all potential homo sapiens wondering  
" what is going on here "

where none of the human rights are guaranteed  
since this would be the end of all their power

galactic central

an introduction to the religion

and history of the galactic nation

the homo sapiens

this is a documentary

from a visitor > from a far away galaxy

coming to us 26 millennia ago > in his spirit only ....

having now incarnated in our own biology

to be telling us the story

of his own civilization

since we are homo sapiens ...

we have of course no democracy

certainly no secret and free voting  
but of course an argumentocracy

meaning ...

where the best solution is used by all

because only the best solution  
can be shaping our future for all eternity

where our universe and all worlds  
are preserved to eternity

and should some one  
bring forward a scientifically provable  
better solution > then this will be used

of course we have no theocracy  
even though it is our entire existence  
to conserve this universe and all its people  
so ... we live according to a religion

there is no humanity with power positions  
but an alienating hierarchy

and alienation creates automatically  
and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism

since this only can be the end

of every thing

we create everything that we need

so .... that we have everything

and of course we can keep it

for millions of years ...

### prolog

on this planet ...

it is like a fata morgana !

you do not know what you even could do ...

because there is sparkling water in front of here

but actually you know

that there is no water there !

but what else can a man do?

just to continue ...

because here at this point >

there is surely nothing to drink !

and there in front > there is no hope !

only at the end your dead by boredom ...

because this world is becoming the second venus

so only boiling water ... when ever ....

because there is not even  
a consciousness somewhere ....  
no dialogue or public truth

only all these thirsty  
trying with their last strength  
reaching the water not being ...

there!

the visitor

already from space coming ....  
any intelligent visitor ... will see

that this planetary population can be no homo sapiens !

just looking at the illumination of the dark side of the planet !  
and this mass of radio transmissions for broadcasting ....  
entertainment

when every one should be resting !

because every human needs contemplation ....  
otherwise he will be > becoming insane !

then ... when the visitor .... closing in .... and all this  
garbage ..... to be seen  
he can only turn away disgusted

and when we are coming down on this ... "earth" .... then  
...

every one is running from one drug of entertainment

to the next > drug of food .....

or this guarding the peoples humanity

with wolves > with state licensing dog tags !

or just looking at those ideas > this population has

about an extra terrestrial civilization >

no longer ... any ..... rest period .... at all

just endless fun !

or the "search" of this earthlies

for extra terrestrials ... via radio waves .....

then we know for sure

that this can only be simply a mass of insanity

and should more evidence of this be needed

then we need just to look at this animal love !

when every homo sapiens is knowing

that animals never want to live in human dignity ...

this is a very unusual superiority

of the homo sapiens in this universe ....

consequently they are

the only such > long enough there

not just to settle one galaxy ....

but the whole universe !

documenting a day in the life

of > first planet < in the year 154 after  
creation

of the first human settlement in this universe .....

note .... a responsible life style ...

can not only be the biggest fun in the universe  
but being the only life style ... working endlessly

because every one can be convinced of what he should be doing !

forever .....

we are looking at > first planet > at our very right  
our sun > below left > what is looking like a tiny moon  
being the space ship > watching out for the safety  
parked in geo stationary orbit over the settlement  
with only the sensor doors open

we are seeing no lights an the planet be low  
no sign of any settlement ... or manufacturing  
the only thing to indicating any population as of now

are the out rigger sail boats beached > the solar electric  
rovers

the solar powered river boats

but there is an emergency plan ready

to put all those under cover should any need arise

the camouflaged hydro electric plant at the river fall is not  
operating

the lights for orientation in all the housing and control centers

is being supplied by tiny local thermo nuclear power plants

from the former uses on the robot ships

and planet rovers

there is no other hind of any human population any where from here

naturally ... no broadcasting of any radio trans mission of this  
world

can be received at any distance !

as all communication is done > by quanta communicators

low power short distance equipment or through under ground  
lines ....

we are now in the main command room

the display showing > automatic surveillance mode on

no space sensors > no space ships

now asteroid on coordinates 6 39 15.70 > 2 16 22.17

received quanta message from planet two

but no frequency messages

since automatic mode started !

the crew sleeping > like all residents be low on the planet

we are now going toward the first planet > seeing a robot ship  
monitoring the settlement > seeing a predator going toward it  
notifying the nearest planet rover automatically at the planet

surface

there the animal repulsion system is activated  
and the tiger is making a U turn and going off

we are now in a cave > at the rivers bank  
seeing two children in the dawn of the new day  
the increasing light being brought in their room  
by an automated mirror from the rising sun

the led clock showing 5 45 .... the date 05 03 000 154 >  
at this moment

the boy is waking up and looking what time and saying aloud  
will to be getting up soon

when his sister is opening her eyes too

now we are in the kitchen of the cave  
where the boy is telling his parents there  
that he does not want to go to school today  
but be playing with his friends at the river  
his mom asking him

what they are having in school today ?

and he startles

because he was to show off his experiment of mixing colors today !

so ... he thinks > he will be going to school today after all  
to be showing off

an electric motor  
where a disk of all colors in sectors  
will be becoming an off white once turning

the mother saying > we are having  
commanders day 100 th anniversary coming up in 3 days  
then we will all be having off

and dancing and singing together all day long

do you remember what he has done for us ?

yes ... says the girl

he was the founder of our religion

he and his crew of a space ship

put the tyrant and his bandits of the empire on a planet to die

while having time to realize all their wrong doing

and settled this world for us

free of any wrong doing

I am > because we all are !

and we can be > because I can be

what is the supreme law ?

the universe ... and any world

use only as defined by creation !

and consequently from this derive

all commandments

all fundamental rights from !

as well as the requirement for peace !

all must recognize the present reality

and then ... guarantee a new !

meaning an accountable life

providing for all

no mirage > without any delusion !  
without physical force > without taboos  
all must be addressable !  
meaning capable of

being a responsible citizen

then he went off in his spirit later on  
leaving his body be hind here

to be helping a native population  
living after our religion in some other galaxy !  
and this day we are celebrating  
what he having done for us

all their other relatives are coming in now  
many being over a hundred years old !

they are fixing breakfast now  
from the seeds they have been collecting days ahead  
and rolling them out

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school  
half of the adults are going collecting lunch ingredients

the others going to their work

since this being the first settlement ...

the galactic council being here

and the co ordination of all the things to being done

the council members

are considering the danger from the asteroid

sending a robot ship to it > to making star dust out of it

to fertilizing our planet !

the message from planet two will be considered now ...

to our dear galactic counsel members

as you know ....

we have arrived at our new home month ago !

taking inventory of all plants and animals

pathogens and toxins ...

atmospheric components being confirmed

animal population is in a very early state !

having selected a location for the new settlement !

like our first> at first planet ... at a river bank

in a desert within the tropics

since the sun shining less than

at first planet > we will be limiting the settlements

to the near equator ...

there are limited places for caves ... so  
we will later be building partially submerged housing there  
since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...

we will be all moving into our new housing now

to be celebrating commanders day ...  
all together on our new future planet !

leaving the space ship two > at automatic command mode

our dearest regards to all of you  
for having made this possible

commander ss 2

the counsil members compose a reply and congratulations  
for the successful start of a new settlement  
on the second planet

there while in a another galaxy  
the spirit of the commander !

still working on the evolution to a higher race

there !

the harbor being down river

the space craft factory being at the hydro electric plant

up the river ... right here

many service work shops for all the technology used

note books having direct led screens

every pixel having one triple led

using less than 1 watt

the rest having only 100 mhz

and the OS being optimized

as well as all the applications for this

there is only one model for each use

and that being build to last a 1000 years

then at 11 they all coming together again to eating lunch

under the trees by the river

then at 1 pm they are going

to take place at the workers who are now hunting

and collecting for diner and the next day until 5 pm

then eating together with their families

after they are just resting and talking things over

so no problems are unsolved ... till at about mid night

they are having a snack

to be sleeping again till the morning

there is no hierarchy ...

because this would be an alienation

and be a coming problem for all !

everything must be transparent

everything must be understood by all !

only in an emergency > there is a command structure

thus > in a spaceship > at a sea crossing

so if there is no time for talks !

but even then all orders ... spoken

about in retrospect and reviewed by all

to find the better answer !

just as there is no democracy or theocracy

since only ... if all can agree

the answer can be right !

and only if there is no time there will be

temporary solutions used

till a better solution is found !

and should any individual or a group

not be responsible for our universe

not willing to be responsive

then this necessity

will be carried forward with all force !

while there is every freedom to act on your own  
there must be no exclusion for any one or any thing

everything must > stay part of the creation !  
because as soon as anybody is excluded  
he will be feeling alienated ....

then arises >>> a criminal association

and each organized crime on a world  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing  
and what effect this is having on eternity ...

> genesis <

> the emergence of the first homo sapiens in this  
universe

..... it happened in another galaxy ....  
more than a billion years ago >

> the suspension <

the location

a space ship of the imperial forces on a reconnaissance flight  
for a potential new colony

the commander and his crew > being the members of a new  
religion

schedule the launching of quantum communicators  
for the posting of fictitious place data intended  
for the imperial center through robot ships

this data adhering to the prescribed course !  
as well as some quantum communicators  
for fictional communications

as soon as those are on the destination  
they will fake the destruction of the command spaceship

the robot ships will then return  
to the mother ship on the new course

the other quantum communicators  
have already been secretly destroyed  
through the removal of the entangled quanta  
in these .... forever

therefore it will no longer be possible  
to communicate with the imperial center

today the powers of the imperial center on this space ship  
will be disempowered and deposed on the nearby planet  
only with the possibilities of primitive hunters and collectors

two robot ships will be left on this world

to enforce the conditions

create no signs for any one to see from space

no settlements .... plantings > markers

no radio or light ... fire sign development

otherwise they will be every time > be de powered > a method

the individual lying for hours in terrible pain

until they adhere to the conditions !

they should have time

for their gruesome slavery methods becoming conscious of !

at this meeting

the emperor notifying to his claims

as supreme commander and as the owner of the spaceship !

which is countered

that everything belonging to the creator of this universe

and we are just the managers of all !

that this ship was built by millions of hours through  
slaves

it being on time .... it will perform a righteous purpose !

use it for a decent way of life in this universe ....

after this meeting

there remain only the emperor and 2 of his adjutants to be deposed  
of

since there are some minors of the imperial center > joining

the new mission> which provides

that the spaceship diagonally at this present course

going to a planet known only to them

but not by the imperial center

through

distortions made by the crew  
but this region having been carefully explored  
providing

that the new ones are not found .... so easily

they could no longer .... stand watching  
the slavery emanating from this empire  
have for years thought of a way  
to be sneaking a way

to live a simple and decent life in this universe !

and this priority for their future security  
will from the beginning be their first priority

they will only create underground settlements  
only collect naturally growing fruits and  
catches of wild fish and ... hunting

until in a different galaxy  
they can be sure of not be coming prisoners of this empire again

they will only use animal paths for their movements  
but they will not keep any animals

since this would be incompatible with their religion  
because animals are no decent .... citizens  
friends or neighbors !

they will of course not make any lights outside in the night  
and absolutely no power broadcasting of radio waves !

they will for their communications > their energy

use only wiring > invisible > underground

because their religion allowing no light at night any ways  
except for orientation at their home and necessary news  
no distractions > no entertainment !

should later bigger settlements  
on different continents > islands of their new world ...  
develop  
then the quantum communicators for news etc  
will be equipped with new entangled quanta  
thus ensuring a secure transmission

they will make the spaceship invisible by perfect camouflage  
for the transition use it for their food research + health care

and then later > when new generations have been growing up  
colonize many other worlds with .....  
to better the prospects for their survival !

this  
the story of the genesis of the modern homo sapiens  
in many galaxies of this universe  
their development of the technology  
for un manned colonization to other galaxies .....

giving ... no other race to this day > the capability to attack  
us  
as we settle on ..... in principle .... only those galaxies  
where no other technologically advanced race

and because we observe all evolution in our galaxies  
long handed in advance ..... each .... even the potential  
of a threat to our way of life

the further development of the galactic religion  
the galactic nation and its institutions in many galaxies  
and of course> the history of the emergence of the

council galactic central

being a new meaning >  
because it never is telling any one any thing  
or being told what so ever

but just bringing forth the best solutions  
every one can be agreeing on

this is therefore a documentary > no a fairy tale  
even though for a citizen of this planet earth  
it may be sounding like a nightmare

since their empire .... their paradise  
at best a ... hypocritical ... seemingly decent  
and their power position in it

the freedom to enslave others  
their highest priority !

because for people ..... living honorably  
responsibly ..... is simply unacceptable for them !

the further development ...

> 10 years after <

after arriving here at our new home

we are preparing ... to live here!

by taking samples of all ... through a planet rover

from each plant > animal > vermin > pathogen

then we create vaccines > to live healthy

without diseases ... any deficiency or poisoning !

the new planet ... a little smaller than our original

therefore everything is easier ... to realize and much easier  
handling

our new sun ... a little smaller too

having a rest life time ... we hope almost 10 billion years

having less UV radiation ... our year is much shorter

but as we will be on the border of the tropics and subtropics

the plants there still having enough time to mature

and because there are always different kinds growing

some thriving in the winter time .... some in spring ... summer or  
autumn

we will be having no problems !

we explore a place on a river

the location being in a desert

but massively fed from a remote mountain range

where on both sides everything grows in abundance !

on the steep hills on one side

we build an underground settlement in the light tuff  
where already natural caves exist by erosion  
we are digging further inconspicuously  
from these

for our underground settlement  
where every morning the sun is shining in  
to wake up every one !

then we are working in the work shops until lunch  
afterward .... working outdoors ... getting animals and fish  
until dinner

as well > we are having under the protection  
of the trees along the river

the laundry ... baths ... and all big workshops set up  
and the big kitchen ... because there to every thing  
easier to transport to !

and there ... we as well are eating all together  
afterwards only contemplation and discussions with the family

the first children of this new world are growing up  
and some appropriate .... after their training  
will then colonize other worlds !

we are using the thermo nuclear generators of the robot ships  
to having energy .... until we build bio gas plants  
where all the bio waste will get in there ....

for cooking and preparing hot water !  
for our gas power plant ...

afterward shall the mud again be supplied back to nature  
as a fertilizer !

we do not want to use hydro power for now  
until we are sure > that it will not expose our existence

so far > no report from the telescope on our spaceship  
meaning no imperial ships or probes

we find crude fibers to weaving  
for fabrics and making clothes !

we build an outrigger sailboat to crossing the river  
and trips to the nearby coast ... where grass seeds are growing  
and everything other we can use !

to getting all we need .... for the growing population

> the end of empire <

we learn from the robot ships ... left at the exile planet  
that the emperor and his two henchmen ... are death

and many years later> that by losing the emperors ship  
the embarrassing dis empowerment on our part  
even the empire itself sinking into chaos  
over all those riots and sabotage

as the empire now headless > without true knowledge  
and character >

every one trying just to savor rulers paradise !

resources squandering > contaminating the environment  
instigating wars > destroying all

only for the preservation of their power

until only a few > in miserable existence .... remain !

from this empire will come no danger to us

but we know that not ... until much later !

> the first generation <

the children thrive in this heavenly environment

we do not have the slightest problem !

we can take on any problem immediately and directly address

to find a general realization

the education of the spaceman going ahead as well

only no one really ... wants to get away from here

therefore we decide > to first develop this world more

before some of us leave it

to populate some other planet !

> the commander going his way <

he has developed a way  
for immaterial remote sensing > other worlds  
where higher animals have already developed  
to serve for the incarnation of our religion

he predicts > that he will leave behind his body now for ever  
and will go to another galaxy with out it > only his spirit  
because the distance for manned flight > is much to large !

he will help the native population there in their own system  
developing towards > according to our religion

saving them from going into barbaric competitions  
through incarnating him self into the native population !

he informs some of us > of a means to call him  
should we need him ..... or he him self ... us  
but he can only with his spirit coming back to us

his body we should bury after his death

.... the message ....

on the inter galactic frequency we receive one day  
a wireless message > from a radio amateur  
reporting of the end of the empire !

we are considering what to do ?

we could fly to another position

to not directly betray us

and reply from there ...

but what could help this ?

such a sick population as this there

no man can help with words !

there is not even a possibility

our intention ... our lives to describe there !

they would not believe us even

that there are homo sapiens in this universe!

and why would anyone want to limit itself  
in its power ruling ... for to good of the future ?

if these offenders there

only just do not want to do this !

we could fly there

and what could we do there ?

we could start a war

with these now stake holders

could free them > of their stupidity !

but who would want this ?

we want certainly no war

they want

only their irresponsible life !

this now crystal clear

so who then wanted to start a war ?

if not any danger

no chance of having any success ?

there is not even a real law and order there  
not any real religion for homo sapiens !

no conscience > no haze of something other  
only endless power play

and when we would free those slaves  
and selecting a 1000 from the general public  
and then flying them here

we would have 1000 potential tyrants here  
problems for our future !

there is a treatment for those  
but since they would have to want to first being healthy  
and which a disease wants to get ... well ?

we thought that it was just >>> the emperor !  
but now we know > that it is also each and every one  
tacking part in this

because ... we could have taken part in this further  
in this eternal game of the rulers paradise

where only the position of power decide  
how much does he savor !

how many resources squandered  
how much the environment contaminated  
how many people forever tortured to death !

of course ... we will not reply  
as we never send out radio waves !

which can leave our world

we shudder only ... if we think of all of these !

it is not just about our security

it is about the future of this whole universe

100 years after ....

we have many settlements on our world

we visit with our vector fin outrigger sailboats

and deliver key parts

we build solar power freighters for inland navigation

and areas with little wind

we have at a waterfall ... far above our river

a hydro electric power plant ... installed underground

and on the cliffs there

a roof with vegetation on top camouflaging a factory

for our robot ships and space ship production

for ground transport > we build desert rovers

with solar powered electric drive

of course bicycles

with direct front wheel hub drive !

we stay young through proper eating

and as well exercise every day in the sunshine

of course because of our satisfaction !

and because we know

to be doing the right thing

we use > the thermo nuclear generators

from our robot ships etc > after exchange

for a long time coming !

for example in the settlement area

where the weight factor / current output are of no concern

then after centuries using them there > the remains

are smashed further by artificial neutron bombardment

till these residual isotopes to becoming lead

nontoxic

over the whole period of time ... the waste heat

continue to be used or the electricity produced

of course we will mine the uranium > for this to begin  
with

safe > meaning underground > and with mine robots

so there will not only be no danger > created for the  
environment

but de facto > the radiation dose from this natural  
source

even be reduced in the long term

the whole production process of this thermo generators  
and their reuse conversion > will of course be done with  
robot systems

and monitored by us via video continuously

our pcs have ... inclusive monitor

a power consumption of < 1 watt equivalent

because our programs are so optimized

that they are only some mbs

and consequently only need a few mhz !

there is only one kind for any purpose  
so there are spare parts and renovation for  
millions of years guaranteed

our lighting fixtures have led > and by over sizing them  
therefore maximum efficiency > use only a few milli watts  
under difficult working conditions ... about one watt

and they are functioning some millions of hours

of course we apply sun radiation via mirror deflection  
in our workshops > wherever possible

of course we work normally only in the day time  
and our lighting is for guidance mostly  
in our living places at night

1000 year after ....

we scan further along our space environment  
crumble all meteors > which are dangerous to us  
so they fall as star dust only

we visit for the first time our world of origin !  
and film the destruction caused by endless wars  
and the exploitation of resources

but never make contact with the few survivors  
there because of lack of metals > are living  
dying like in the stone age !

we as well are also making no contact  
with any vermin and predatory animals

who simply have no use for our way of life  
are pure creature of instinct

slaves to their criminal environment !  
simply atrocious

compared with us > where you can not even see  
that there are people living > because we save each screw  
every piece of metal .... and reuse every thing !

never make anything out of order  
or build it just for a limited time  
but for an eternity

although we seem to have no enemies anywhere  
but just for the esthetics > we camouflage all technology  
laying high voltage dc lines in the river

all the others  
can be camouflaged in an emergency !

a million years after ....

our original world ... does not ... have any more people  
on it ... because of the contamination everywhere  
the lack of resources and foresight

and because of this hopeless stupidity  
they are gone extinct ... bored to their own death

we have now settled several other worlds in our galaxy  
and through immaterial mind transfer > some other galaxies  
for our life as homo sapiens

there are no wars > no contamination  
no hunger in our civilization any where  
because all ... are part of every thing  
all have the possibility

within the line of the universe  
to realize all we want

we show our videos ... of our former world  
in social .... political ... and religious lessons !

and no one can believe it  
that there is such a mentally handicapped population possible !

we exchange ideas via mental visits with the other galaxies  
as well our former commander

being the beginning of the counsil galactic central  
as well the be ginning of the galactic nation existing already !  
we continuously contact all via quantum communicators ...

the galactic religion ... the essence of our life > perfected  
seeing any risk for our intelligent life ... long ahead ....  
having an answer for everything !

everyone can be helping to perfect  
we all want to live in a paradise for all

where there are no victims > no perpetrators  
no shame > no conceit .... all true and real

paradise every where !

one billion years later ....

we are represented in many galaxies  
by mental transfer

through the incarnation in advanced animal bodies !

and over all this time to have our idea  
endlessly proven ... the homo sapiens race !

only there was ... just mean idiot selection  
created by such a stupid idea > as this world here

where one idiot with the other competing  
to all these idiots delight ... in their insanity

the great stupidity .... their mass of enslavement !

creating meaningless jobs !  
see house hold delivery of toxins !  
people being driven to freak out !  
to preventing any solutions !

see this planet satan here .....

the further development of the galactic religion

we having been thinking all these years about  
how we could protect our way of life against any destruction  
so .... we develop our religion further

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive  
all commandments

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all

no mirage > without conceit !

without physical force > without taboos ...

all must be addressable !

meaning capable of

being a responsible citizen

> galactic central <

we are creating an information institute

where all knowledge is collected > organized and analysed

> galactic nation <

is there for all homo sapiens

in all intelligent nations of this universe

> counsil galactic central <

after many worlds in other galaxies having been inhabited  
by us

we develop an institution

where always some of us in their galactic neighborhood  
are chosen to visit by immaterial exchange and keeping  
the connection to all of us !

receiving information for all proposals and provide expert  
opinions

for the improvement of all .... on going ... but never  
telling any thing

or being told .... only information to being used if  
accepted by all

galactic foundation

we are the guardians of creation

the homo sapiens ...

being the basis of our civilization for our success in eternity  
with his never ending wisdom > his total responsibility  
where no one ... no idea ... no solution will be shunned > no  
resource being wasted

no environment being spoiled > no security measure left out  
where there is no hierarchy > because every one is the most

important being !

at our never ending paradise on any world in this universe

we at the galactic foundation

are searching constantly finding any and all danger to our society

coming from degeneration and pest

keeping every homo sapiens informed > what a difference they  
are making !

there while any and all danger to our universe

will be eliminated through

our galactic pest control program

the universe ... can not be an organized crime

with its technology > its predatory instinct

on every world > every galaxy

yes ... in the whole universe

so ...

may not hold people from a responsible way of life

since this is without responsibility

since those organized criminals

understanding only their animal instinct

the law of the universe

each one citizen can only use his world

for a purpose of the universe > for creation !

and not for the destruction of their worlds

and certainly not for the destruction

of all responsible life

every little child knowing this in our society !

and everyone can understand it >

because they are having a comprehension ...

fellow humans ... should therefore their fellow human

to be an inspiration and not an inspiration for this

end to your world > but to be keeping it as long as possible

meanwhile > all people are so healthy

and always living healthier !

always freed from any danger

doing less and less for their material needs

not this one day throwing away production

not these hamster wheels

with those migratory locusts economies

the end of your world and the end of all intelligent life

already achieved

a technology may only serve the people

not for his enslavement > not to being terrified to his end

not as a drug > because he's not able to stand this reality

can not bear at all > can not stand

not as a conceit > he would be a success

not as a distraction > from reality

but we need homo sapiens > no idiots selection

for a secure future > for a future at all

so we need the education to a homo sapiens

not to a suicide assassin > these all are ....

because there is no fundamental difference

between any Islamic state > and his religion

or such a satanic state

who puts his delusion through

the individual ...

can not be let to enjoying his idiotic egoism

at the expense of the environment and its fellow human beings

nor can he be enslaved > to a mass of insane

to let their masses enjoy idiotic egoism

to destroying their world and destroying the people

to this horrible reality today

the only possibility for a sustainable world

and a society worthy of its people

to an endlessly functioning environment

an endlessly functioning society

be ... that all first

to recognize the need of a valid order!

and implement this > that all

endless with one another in an open dialogue

every day > always discussing the reality anew

where everyone has a voice > not just the mass

meaning a majority of insane

as now !

and consequently use this public truth

as a basis for your all decisions made

to realize a real righteous state

to fulfill all valid laws

to living a valid religion

homo sapiens?

only harm can come from them !

to the climate > the resources

the seas > the land and the future !

of course to every homo sapiens > who knows

that all this harm to his world will end it

the meaning of a human life

is to work out a decent way of life  
realize it > live it > guarantee it for all !

because only then .... is he a human being !

and therefore there is no meaning here on this world !  
as there is no humane order

because humans only want to live decently  
can be > must be !

otherwise they will be dissatisfied with themselves  
until they can live as humans !

so to achieve this

the meaning in life of each person  
is to make just this happen !

until then ... they feel like losers  
indeed they are .... in reality !

only by their conceit procurement  
this is represented as a success

eves insane aspiration of the true love ....

thus ... the person she will select > being as in any animal  
tribe

to spoil her immeasurably .... this existing for millions of years  
and until 100 years ago ... this was just inhumane !

but today .... this being the big animal love ...  
straight to be the problem ... because eve still  
will marry the great pamperers ... materially and or  
psychologically

a homo sapiens having not the slightest chance !  
only these clever critters .... trained by her ....

eve ... was and be never so generally suppressed !  
but in a stone age society > roughly equivalent with adam ....

but in this western version > where eve can sit around  
and wait until her requirements of this insane love is full filled

guarded by a so inhumanity as this insane western society  
where useless work being created and trained animals > state  
licensed

she be the absolute ruler > the tyrant over life and death !  
since she needs no man > biologically speaking .... emotionally  
but man be entirely dependent on eve ....

else nothing will come of him > even with a pope

he adores ... yes > must worship mother mary !

otherwise he would never becoming a Pope ....

of course there are exceptions

of any outbursts over all this injustice !

so if a man .... to lock her in the cellar

or he makes his exploitation

to have access to a biological necessity !

he never could work out under humane conditions ...

so eve be .... with her animal demands

and no responsibility for the future or humans

be the cause of this worlds dying .....

and as long as this insanity of the suppression of eve

being perpetuated in a single nation ... for selfish motives

for men .... the world to be put to their death >

as long as there will be no rescue for this world

consequently ... we need of course eves great friend

the trained predator

discarded from all areas of human society !

because children growing up with predators

will be just idiotic offenders ....

they .... of course .... to make no future !

just homo sapiens > the now soooo oppressed ....

being capable to work on a solution

to realize this worlds rescue .....

but those in fact .... can not exist !

how is an eve supposed ?

to care for something other ....

then savor heir satanic symbiosis fully !

if no one will constrain her > such as a religion

a tradition > a society !

while .... in this country they are so glorified by all

because they too .... are just a mentally retarded choice !

from this it follows ... a mentally retarded world ...

how is some adam ?

care for something other .... then to savor his satanic symbiosis

if no one here to force him other wise

such as a religion > a tradition > a society !

while in this country he is so glorified by all

because they too are a mentally impaired choice !

from this we follow a mentally retarded world .....

how is a free market economy to function ?

if they may only build rummage > going of next week in the  
garbage

while the climate being flipped > squandering the resources

environmentally damaging ...

otherwise they will not selling long any thing !

how is there supposed to be justice ?

in such a satanic world ....

and how should this pest allow ... any homo sapiens ?

if they can not be in a position to

even knowing > what was right .... or wrong .....

as soon as the individual ....

themselves are out of bounds of the general future design

for example ... because they want to hide their criminal  
intentions ....

meaning ... this idiot selfishness .... to further savor just this

....

or any individual > the responsible > being excluded !

can this be no humanity

but a criminal association !

because only when all have part in it .....

and most importantly ... may be part of this

can this be righteous and consequently .... an honorable society !

and the honor of every one must always be the first priority ....

thus we need all to be heard

observe all valid arguments

and on this basis .... meaning this compiled ... public reality

make our decisions > our future design !

otherwise this is not a rule of law ....

but a criminal association ... as usual ....

this will not be functioning long

see as well the 11th commandment of the galactic religion !

and only having a decent ... honorable future design a true living  
together

can prevent disasters > since they take into account all the reality

where as any criminal association > meaning all of them now end necessarily > because of all these disasters they are creating

because they have not ... the reality as their counselor !  
but their fata morgana .... where no water awaiting  
though their equally insane  
delusion procurement !

homo sapiens ?

it is not ... that those masses are insane

so actually the opposite of rational !

but all of them ? .... competingly criminal ....  
which should be condemned by every law authority !

since they are all ? .... a general danger to this world >  
since inhumane !  
condemning each other .... to state forced labor

forcing each other .... to drug selling > toxins > narcotics  
and buying those ! .... in absence of any thing else to do

entertainment >>> artificial > visual and hot sounds !  
for the distraction of this gruesome reality .....

traveling to other mass delusional centers !

or the really big delusional freedom >

the patient nature .... and their " loving " animals !

the certified freedom from a humanity .....

life should be about human dignity !

about an intelligent life ...

because only if every one is being treated as an intelligent human  
can there be a human civilization long enough to even blink your  
eye

so ... life should not be a game at ever higher levels

should not be about > making out of pawns > big players !

that is simply absurd ...

because the planetary resources will not be there long enough  
for even a million years !

nor the very environment !

nor an intelligent population ...

because players will not be responsible citizens !

because their endeavor having just not this very important  
basic ingredient in there !

so .... we need no highly educated players !

we need responsible entities ... and their capabilities are then  
used

for the security ... the human dignity of all .... for a billion  
years !

on this planet > and for eternity .... on other worlds ... in  
other universa

so ... all power emanating from the government should be about  
to guarding human dignity ....

or every thing will be over in a 100 years !

its clear to see .... for any homo sapiens ...

## epilog

this population must becoming sane or disposed of !

there is no alternative for the universe ...

so free and secret majority voting

must be abolished

and publicly argued on an internet forum

for solutions where everyone can participate

where everyone to put forward a better argument

to one for all binding solution present > no mass delusion !

because the majority is always wrong

and only a few right and we need a solution

we need an argumentocracy !

can some one suggest a better argument ?

for a responsible life ...

and only a responsible life

can save this world > no mass delusion !

is this clear to all ?

because democracy was already wrong

according to some of the ancient greeks !

so it must be made public > that women are not suppressed

but the cause of all problems > meaning the problem !

because she only dreams of the destruction of all higher life

so we need the education to being homo sapiens !

so a galactic university > showing the solutions
